Pages: 1

25X1X6

1. [REDACTED]

2. According to the announcement (in French), the congress took place in Davos because of the accessibility to the meteorological institutions in the area:

a. L'Observatoire physico - meteorologique a Davos - Platz
(Director: Dr W. Morikofer)

b. L'Institut federal pour l'etude de la neige et des avalanches au
Weissfluhjoch sur Davos
(Director: Dr M. de Quervain)

3. The congress planned to devote four one-half days to scientific papers and two one-half days to the visiting of the above-mentioned institutions. The main topics of the conference were to be:

a. Meteorologic synoptique

b. Rayonnement

c. Biochimatologie

25X1X6 d. Neige et glace

4. [REDACTED] the congress was under the auspices of the Societe suisse de Geophysique, Meteorologie et Astronomie [President - Professor F. Gassmann] and Station centrale suisse de meteorologie, Zurich [Director - Professor J. Lugeon].
